Georgia Department
of Audits & Accounts

Greg S. Griffin
State Auditor

January 1, 2025

The Honorable Brian P. Kemp, Governor
The Honorable Burt Jones, Lieutenant Governor
The Honorable Jon Burns, Speaker of the House of Representatives
Members of the General Assembly

Ladies and Gentlemen:

In accordance with the Official Code of Georgia Annotated (O.C.G.A.), Section 47-1-3, the governing authority of each local retirement system is required to file an actuarial investigation and financial report with the State Auditor by October 1 of each even numbered year. Based on these actuarial investigations and financial reports, the State Auditor is required to report to the Governor and each member of the General Assembly once every two years on the financial condition of local retirement plans and on their compliance with investment requirements. This report is intended to fulfill the reporting requirement outlined in O.C.G.A. §47-1-4 and to provide information about local retirement plans in Georgia and their adherence with the Public Retirement Systems Standards Law. A copy of this report has been filed as a permanent record with the State Auditor and is available to the public.

Appreciation is expressed to the officials of the local governments and the local retirement plans for their assistance in presenting this report.

Respectfully,

Greg S. Griffin
State Auditor

GSG/jn

This page intentionally blank

Purpose of the Report

The purpose of this report is to comply with the Official Code of Georgia Annotated (O.C.G.A.) §47-1-4 which requires the State Auditor to report on the condition and actuarial soundness of local retirement plans. In addition, state law requires the State Auditor to report on the retirement plans' compliance with the investment requirements outlined in O.C.G.A. §47-20-83.

This report addresses local retirement plans' compliance with the reporting requirements established in O.C.G.A. §47-1-3, adherence to the Public Retirement Systems Standards Law (O.C.G.A. §47-20-1 et seq.), and compliance with investing requirements specified in O.C.G.A. §47-20-83. The report also provides information on the known number and type of local retirement plans in Georgia; this includes municipalities, counties, consolidated governments, regional commissions, local boards of education, and local authorities.

Background

Responsibilities of the local retirement plan

The Public Retirement Systems Standards Law (O.C.G.A. §47-20-1 et seq.) provides minimum funding standards for local retirement plans. In accordance with O.C.G.A. §47-1-3, every two years each local retirement plan is required to file with the State Auditor an actuarial investigation demonstrating compliance with the minimum funding standards. Each local retirement plan is also required to file financial reports with its actuarial investigation. The financial reports must contain information on the plan's receipts and disbursements, provide data regarding plan membership and beneficiaries, and cite any changes to the plan since the previous actuarial investigation.

The O.C.G.A. §47-1-3 also requires the local retirement plans to certify that they have complied with the investment provisions outlined in the Public Retirement Systems Standards Law (O.C.G.A. §47-20-1 et seq.) This Law specifies that retirement systems that meet the criteria for a large retirement system as provided in O.C.G.A. §47-20-84 may not invest more than 75 percent of its assets in equities. These large retirement systems are also allowed to invest in corporations or in obligations of corporations organized in a country other than the United States or Canada. Retirement systems that do not qualify as a large retirement system may not invest more than 55 percent of retirement system assets in equities. Also, investments in business entities organized in a country other than the United States or Canada are prohibited for these systems. No fund shall increase its assets in equities through purchase by more than 20 percent in any fiscal year. Please see **Appendix G** for some history on the significant changes made to the Public Retirement Systems Standards Law.

Responsibility of the State Auditor

After the local retirement plans have filed the actuarial investigations and financial reports, the State Auditor is required to report on the condition of these

plans to the Governor and members of the General Assembly. Beginning January 1997, the State Auditor is required to issue this report every two years. Previously, this report was issued every three years beginning January 1983. This report fulfills the requirement for the January 2025 reporting period.

Compliance with Statutory Requirements

Reporting Requirements

All municipalities, counties, consolidated governments, regional commissions, local boards of education, and authorities with identified retirement plans have complied with the state's reporting requirements except:

- City of Clayton (repeat finding)
- City of Milledgeville
- Hospital Authority of Washington County (repeat finding)

These governments have not complied with some, or all of the reporting requirements established in O.C.G.A. §47-1-3. Consequently, as required by O.C.G.A. §47-1-5, the State Treasurer has been notified to withhold any state funds payable to these entities until the actuarial investigations and financial reports are submitted.

In addition to the noncompliant governments with identified retirement plans listed above, **Appendix A** provides a listing of governments that did not respond to requests for information. Of the 2,160 governments, 906 or 42% did not respond compared to 37% for the prior reporting period. The governments were repeatedly notified by email or letters of the reporting requirements. No information on the retirement benefits that are offered by these governments, if any, is presented in this report.

Funding Requirements

Except for the following, all applicable retirement plans that reported to us were, according to their actuaries, funded in accordance with the Public Retirement Systems Standards Law (O.C.G.A. §47-20-1 et seq.).

- Hospital Authority of Washington County

This government did not meet the minimum funding standards. Consequently, as required by O.C.G.A. §47-20-21, the State Treasurer was notified to withhold any state funds payable to this entity until the government's actuary certifies to the State Auditor and to the State Treasurer that employer contributions are in conformity with the minimum funding standards.

In June 2012, the Governmental Accounting Standards Board (GASB) issued GASB Statement No. 67 – Financial Reporting for Pension Plans – an amendment of GASB Statement No. 25, which was effective for pension plan

financial statements with fiscal years beginning after June 15, 2013. This statement superseded Statement 25 and established new financial reporting requirements for defined benefit pension plans. Unlike GASB Statement 25 which included funding parameters for the calculation of the annual required contribution, GASB Statement 67 did not address pension plan funding requirements. Because of the changes in the GASB standards, the General Assembly passed 2014 House Bill 761 to retain the funding parameters of GASB Statement 25 as the required minimum funding standards in Georgia.

Investing Requirements

Except for the three entities noted above in the Reporting Requirements section, all applicable retirement plans provided information regarding their compliance with the investment requirements outlined in O.C.G.A. §47-20-83 and §47-20-84.

According to the certifications received from the local retirement plans and responses to the investment survey, all plans complied with the investing requirements at all times during the two-year reporting period. In addition to the investment certification, local government retirement plans were requested to provide a breakdown of their investment portfolio. **Appendix B** provides a detailed listing of investment assets by type for each single employer defined benefit plan.

Summary of Local Retirement Plans

Defined Benefit Plans

There are several types of retirement plans for local government employees in Georgia. Defined benefit plans use a specified benefit formula to compute the benefit that a retired employee is entitled to receive. The benefit formula may include years of service, salary, age, type of annuity chosen, and other factors.

Because this type of plan promises the employee a certain benefit level (based on the formula), there can be an unfunded liability created for these plans if plan assets do not equal the present value of projected benefit payments. The Public Retirement Systems Standards Law established minimum funding standards to ensure the actuarial soundness of public retirement plans. These standards provide that an employer must make an annual contribution to the plan sufficient to pay the current year cost plus the amount necessary to amortize any unfunded liability over a period of years.

Currently, there are a total of 467 defined benefit plans subject to the Public Retirement Systems Standards Law. Of this total, 66 (14%) are single-employer plans.

GMEBS and ACCG-Administered Plans

The Georgia Municipal Employees Benefit System (GMEBS) and the Association County Commissioners of Georgia (ACCG) are agent multiple-employer defined

benefit pension plans. As such, plan assets are pooled for investment purposes, but separate accounts are maintained for each individual employer so that each employer's share of the pooled assets is legally available to pay the benefits of only its employees. This is different from cost-sharing multiple-employer plans when cost-sharing pension plan assets can be used to pay the benefits of the employees of any employer that provides pensions through the pension plan.

The GMEBS administers retirement programs for 295 local governments. The ACCG administers retirement programs for 106 local governments. Together, these two plans administer 86% of the local government defined benefit retirement plans. Local governments with plans administered by these two organizations are not required to submit separate actuarial valuations or financial reports. Instead, these two organizations issue individual reports on all member plans.

Exhibit 1 below shows the number of defined benefit plans by type of local government unit.

Exhibit 1

Number of Defined Benefit Retirement Plans Reported by Type of Local Government Unit

Governmental Units	Total Number	Number with Local Retirement Plans	Number of Local Retirement Plans ¹ Administered By			Percent With Local Retirement Plans
			Single Employer	GMEBS ²	ACCG ³	
Municipalities ⁴	529	271	22	255	0	51%
Counties	152	110	12	0	99	72%
Consolidated Governments	7	5	11	3	0	71%
Regional Commissions	12	9	1	7	1	75%
Local Boards of Authorities	180	4	5	0	0	2%
Local Authorities ⁵	1,280	50	15	30	6	4%
	<u>2,160</u>	<u>449</u>	<u>66</u>	<u>295</u>	<u>106</u>	21%

¹ Because some governments have more than one retirement plan, there are a total of 467 plans, including closed plans.

² Georgia Municipal Employees Benefit System

³ Association County Commissioners of Georgia

⁴ Incorporated/active municipalities from the Georgia Department of Community Affairs

⁵ Local authorities identified by the Georgia Department of Community Affairs.

Appendix C provides a listing of all the local governments with identified retirement plans. The listing identifies the administrator of the retirement plan, the actuarial value of plan assets (A), the actuarial accrued liability (B), and the funded ratio (A/B). The funded ratio from the 2019, 2021, 2023, and 2025

biennial retirement reports are presented in **Appendix D**. Analysis of the dollar amount of the actuarial value of assets, actuarial accrued liability, and unfunded actuarial accrued liability in isolation can be misleading. However, expressing the actuarial value of assets as a percentage of the accrued liability (i.e., the funded ratio) does provide an indication of the plan's funding status on a going-concern basis. Analysis of this percentage, over time, indicates whether the plan is becoming financially stronger or weaker. Generally, the greater this percentage, the stronger the plan.

A number of significant assumptions are made to determine projected long-term funding obligations and related costs of a pension plan. These assumptions represent management's best projection of future plan experience and are generally either economic or demographic. Economic assumptions include anticipated inflation rates, salary increases, and performance of the fund's assets. Demographic assumptions tend to be more specific to the plan being evaluated and are dependent on such factors as the age and life expectancy of plan members. The actuarial assumptions do not determine the plan's cost to the government. This cost is solely determined by the benefits and administrative expenses paid out, offset by the plan's contributions and investment income. The objective of the actuarial funding valuation is to develop an estimate that closely reflects what the actual cost will be, ensuring that amounts contributed will be sufficient to provide future benefits and maintain equity among generations of taxpayers and plan participants. **Appendix E** of this report summarizes selected economic assumptions reported in the actuarial valuations submitted.

Defined Contribution Plans

Defined contribution plans are those in which the employer contributes a certain amount to an account for each participating employee. The employees' benefits upon retirement are determined by the amount in their individual accounts. These retirement plans do not incur an actuarial liability. Based on the definition of retirement systems in the Public Retirement Systems Standards Law, defined contribution plans are not considered local retirement systems. Therefore, these plans are not included in this report. However, to assist readers in obtaining a more complete understanding of the retirement and postemployment benefits offered by local governments, **Appendix F** includes a listing of governments offering defined contribution plans.

Deferred Compensation Plans

A deferred compensation plan is a plan that offers employees the opportunity to defer receipt of a portion of their salary and the related liability for federal income taxes. To assist readers in obtaining a more complete understanding of the retirement and postemployment benefits offered by local governments, **Appendix F** includes a listing of governments offering a deferred compensation plan.

Other Postemployment Benefits

Other postemployment benefits (OPEB) are benefits (other than pension benefits) that are paid subsequent to the termination of employment. These benefits include postemployment healthcare benefits (e.g., medical, dental, vision, hearing, and other health-related benefits), regardless of the type of plan that provides them, and all other postemployment benefits (e.g., life insurance, disability, long-term care, and other benefits if provided as compensation for employee services) provided through a plan that does not provide retirement income. To assist readers in obtaining a more complete understanding of the retirement and postemployment benefits offered by local governments, **Appendix F** includes a listing of governments offering postemployment healthcare benefits and other postemployment benefits.

*1 - New plan for this reporting period.

*2 - No amounts reported since plan is maintained on a pay-as-you-go basis. Contributions to the plan are generally made at about the same time and in about the same amount as benefit payments and expenses become due. This is allowable since the plan was closed prior to 1983.

*3 - Government has not submitted all information required and is not in compliance with O.C.G.A. §47-1-3.

*4 - Plan was transferred from a single-employer plan to ACCG or GMEBS since last report. Current year ACCG or GMEBS data presented when available.

*5 - The City of Macon and Bibb County consolidated into one government in 2014. This plan was formerly a City of Macon Plan

*6 - The City of Macon and Bibb County consolidated into one government in 2014. This plan was formerly a Bibb County Plan

*7 - Since City of Atlanta General Employees Pension Fund includes certain employees of the Atlanta Board of Education, information is provided with City of Atlanta.

*1 - New plan for this reporting period.

*2 - No amounts reported since plan is maintained on a pay-as-you-go basis. Contributions to the plan are generally made at about the same time and in about the same amount as benefit payments and expenses become due. This is allowable since the plan was closed prior to 1983.

*3 - Government has not submitted all information required and is not in compliance with O.C.G.A. §47-1-3.

*4 - Plan was transferred from a single-employer plan to ACCG or GMEBS since last report. Current year ACCG or GMEBS data presented when available.

*5 - The City of Macon and Bibb County consolidated into one government in 2014. This plan was formerly a City of Macon Plan

*6 - The City of Macon and Bibb County consolidated into one government in 2014. This plan was formerly a Bibb County Plan

*7 - Since City of Atlanta General Employees Pension Fund includes certain employees of the Atlanta Board of Education, information is provided with City of Atlanta.

▲ Funded ratio increased compared to prior report.

▼ Funded ratio decreased compared to prior report.

-- Increase or decrease not able to be determined due to either the plan being newly created or the aggregate method was used in the prior year.

*1 - New plan for this reporting period.

*2 - No amounts reported since plan is maintained on a pay-as-you-go basis. Contributions to the plan are generally made at about the same time and in about the same amount as benefit payments and expenses become due. This is allowable since the plan was closed prior to 1983.

*3 - Government has not submitted all information required and is not in compliance with O.C.G.A. §47-1-3.

*4 - Plan was transferred from a single-employer plan to ACCG or GMEBS since last report. Current year ACCG or GMEBS data presented when available.

*5 - The City of Macon and Bibb County consolidated into one government in 2014. This plan was formerly a City of Macon Plan

*6 - The City of Macon and Bibb County consolidated into one government in 2014. This plan was formerly a Bibb County Plan

*7 - Since City of Atlanta General Employees Pension Fund includes certain employees of the Atlanta Board of Education, information is provided with City of Atlanta.

*1 - New plan for this reporting period.

*2 - No amounts reported since plan is maintained on a pay-as-you-go basis. Contributions to the plan are generally made at about the same time and in about the same amount as benefit payments and expenses become due. This is allowable since the plan was closed prior to 1983.

*3 - Government has not submitted all information required and is not in compliance with O.C.G.A. §47-1-3.

*4 - Plan was transferred from a single-employer plan to ACCG or GMEBS since last report. Current year ACCG or GMEBS data presented when available.

*5 - The City of Macon and Bibb County consolidated into one government in 2014. This plan was formerly a City of Macon Plan

*6 - The City of Macon and Bibb County consolidated into one government in 2014. This plan was formerly a Bibb County Plan

*7 - Since City of Atlanta General Employees Pension Fund includes certain employees of the Atlanta Board of Education, information is provided with City of Atlanta.

Appendix G: Public Retirement Systems Standards Law

No significant changes have been enacted since the publishing of our prior report in 2023.

Effective July 1996, local retirement plans established or maintained under Article IX, Section II of the Constitution of Georgia are also required to certify that they have complied with the investment provisions outlined in O.C.G.A. §47-20-83. This Code section provides that certain local retirement plans shall not invest more than 50 percent of retirement plan assets in equities. This code section also prohibits investments in business entities organized in a country other than the United States or Canada. However, plans with assets in excess of \$50 million may invest up to 55 percent of their assets in equities and up to 10 percent in corporations or in obligations of corporations organized in a country other than the United States or Canada. Systems that are not in compliance at all times during the reporting period are required to provide to the State Auditor a description of the noncompliance, the reason for the noncompliance, and an explanation of the corrective action taken.

Effective January 31, 2000, the provisions of this Code section were modified due to enactment of House Bill 617, the Public Retirement Systems Investment Authority Law. One of the provisions of this law was an increase in the percentage of total plan funds allowed to be invested in equities. Certain retirement plans with assets in excess of \$50 million may not invest more than 60 percent of its assets in equities; all other funds may not invest more than 55 percent. These requirements are codified in O.C.G.A. §47-20-84. House Bill 617 also provided that any fund not in compliance with the limitations would be granted a two-year period to come into compliance, provided that during the period, the fund did not increase the percentage of its assets invested in equities.

Effective July 1, 2007, the provisions of this Code section were modified due to enactment of House Bill 318. One of the provisions of this bill was to increase the percentage of total plan funds allowed to be invested in corporations or in obligations of corporations organized in a country other than the United States or Canada. Certain retirement plans with assets in excess of \$50 million may not invest more than 15 percent of its assets in such investments.

In 2009, the General Assembly passed House Bill 371, which became effective April 21, 2009. This bill changed the definition of a large retirement system to include any system which has more than \$200 million in assets and certain retirement systems with an accumulated unfunded actuarial liability not greater than 25 percent of total assets (30 percent if total assets exceed \$50 million). The bill also increases the percentage of retirement system assets that may be invested in equities. The limit was increased to 65 percent of total assets prior to July 1, 2010. The limit increased to 70 percent on July 1, 2010, and increased to 75 percent on July 1, 2011. No fund may increase its assets in equities through purchase by more than 20 percent in any fiscal year. Finally, this bill removes the limitation on the percentage of system assets that large retirement systems may invest in corporations or in obligations of corporations organized in a country other than the United States or Canada subject to the provisions of O.C.G.A. §47-20-83(a)(1).

In 2014, the General Assembly passed House Bill 761, which became effective July 1, 2014. This bill amended O.C.G.A. §47-20-10 so as to retain the funding parameters of GASB Statement 25 as the required minimum funding standards in Georgia. In 2015, the General Assembly passed House Bill 217, which became effective July 1, 2015. This bill amended O.C.G.A. §47-20-83 so as to authorize public retirement systems to invest in mutual funds, commingled funds, collective investment funds, common trusts, and group trusts.
